

Xero Projects

For small businesses, it's important to know which jobs deliver the best return on investment and which ones need to be reined in. Cue Xero Projects: the simple way to capture, track and report on the time and money spent on each job so you can proactively invoice, make informed decisions and manage your project financials more efficiently – all with one Xero login.

Projects makes it easy to track and understand your numbers

- Fully integrated with Xero.
- Unlimited number of projects.
- Supports fixed price, time and materials or progress invoicing.
- Work from anywhere with Xero Projects for mobile on iOS and Android.
- A new timer in Xero Projects for iOS and Android, you can now easily record your time in a few simple taps.
- Assign your actual invoices, bills and bank transactions.
- Accurately invoice every time with easy-to-use time tracking and job costing tools.
- Visibility across all jobs and how they're tracking. Ability to see trends and patterns based on up to the minute information.
- Monitors budgets and job costs.
- Out-of-the-box reporting.
- Timesheet insights and reporting.
- 3 Levels of user permissions to manage access levels of your team.
- Real-time view of all your Projects in one place.
- Update Payroll timesheets from your Project timesheets.
- Create projects from your Xero Quotes (coming early 2019).

Simple, cost-efficient and your first month free

If you're a Xero customer, get a free trial by asking your subscriber to add Xero Projects to your subscription. If you're not yet a customer, trial both Xero and Xero Projects free for 30 days. Your monthly Xero Projects subscription includes one active user for \$10 per month. You'll only pay for extra users who were active that month. Your Xero advisor and staff can view project information and run reports free of charge.
